Course Overview

The goal of this summit is to foster collaboration, share best practices and provide a forum for peer-to-peer interaction among Advanced Practice Providers (APP) in the community who are actively engaged in the care of oncology patients. This summit will provide APP learners a broad overview of the latest developments and important current concepts in the multidisciplinary treatment of oncology patients. Additionally, the summit offers an intimate learning environment to facilitate interaction between attendees and faculty so that clinicians can discuss practical patient management.

Intended Learners

Nurse Practitioners, Physician Assistants, Clinical Nurse Specialists, and other healthcare professionals involved in management of the oncology patient.
